

IronMedia Oy is owned by Iiro Koskelainen and Klaus Nummela, two professionals in moving picture. Our impressive track record in the world of video and TV programs and TV advertising goes back to the late 1980s. On a beautiful day in March 2002 we joined forces and established IronMedia Oy.

What does our track record show?

- 1. Moving picture:** video programs, TV advertising and TV programs. Our expertise lies in rich content production, bold productions, strong self-criticism, and an unprejudiced attitude.
- 2. Websites:** if you can send e-mail with attachments, you can also update website content, create links, and change website layout with the help of the IronSite update tool that uses database technology. IronSite is a cost-efficient solution for the demanding customer.
- 3. Photography and image processing:** layout, color schemes, visions – we create digital paintings
- 4. Graphics:** a video program, a website, an animation ... We offer straightforward and effective solutions.

DVD - CD-ROM - WEBSITES - ANIMATION - PHOTOGRAPHY
